

Building Better Opportunities.....

Starfish Services are delivering support for unwaged people in Cannock as part of the Evolve 'Building Better Opportunities' (BBO) project.

The Starfish Services BBO project is built around Social Hubs, these are community groups that meet to support people recovering from mental ill health and social isolation.

We will support around 60 adults a year to take part in training to help build life skills, tackle isolation and consider future work.

All clients will then be encouraged and supported to join Social Hub groups and be offered the chance of training to become a Peer Mentor with the possibility for some to become an accredited Volunteer, achieving an OCN level 2 qualification.

The project will start in February 2017 and run for three years.

For more information, to check eligibility and book an appointment contact us on:
